

ICD-10 is Coming on October 1, 2015!

Please visit cms.gov/ICD10 for the latest news and resources to help you prepare. Or contact Fran Andrews at 706.272.6000, extension 1541 or at fandrews@hhcs.org. Or you may contact Julie Bell at 706.272.6000, extension 1523 or at jbelle@hhcs.org.

You Don't Have to Put Up With Joint Pain

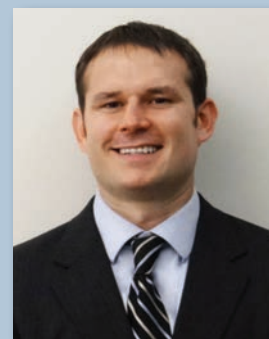

Thankfully there are options when dealing with joint pain. Whether you or your patients are dealing with hip pain, knee pain, or shoulder pain, Hamilton Medical Center has answers.

A good first step when evaluating your options is to attend one of Hamilton Medical Center's Joint Moves seminars. Each Joint Moves seminar is hosted by an orthopedic surgeon and focuses specifically on the hip, knee, or shoulder. Treatment options including medication, exercise, physical therapy, weight loss, and surgery are discussed.

This free program hosted by area orthopedic surgeons provides education on joint pain and sports-related joint injuries. The next session will be presented by Mitch Frix, MD, and Nick Reed, MD, on Thursday, June 18 at 6 pm at the Calhoun Depot, located at 109 S. King Street in Calhoun, Georgia. Call 706.272.6114 by June 17 to register. Light refreshments will be provided. Space is limited.
